

Subject: FW: Consultation on the operation and implementation of the Personal Injuries Assessment Board Acts, 2003 and 2007.

Input to the above request on behalf of Inland Fisheries Ireland

Inland Fisheries Ireland (IFI) the state agency responsible for the protection, management and conservation of Ireland's inland fisheries and sea angling resources. IFI was formed on July 1, 2010 following the amalgamation of the Central Fisheries Board and the seven Regional Fisheries Boards into a single agency.

General Comment

IFI has and continues to have interactions with the Personal Injuries Assessment Board as an element of the management of its insurance process. IFI is satisfied with the manner in which these interactions have been managed by the PIAB in terms of professionalism and timelessness of processing.

Recommendation

Currently issues associated with psychological matters are not included in the PIAB remit. Consideration should be given to the inclusion of such issues in any revised legislation.

Should the recipient require additional information in relation to the above please contact the undersigned.
