

Eamonn Zaidan

Has the Hotel Industry now been impacted by the decision to sign the 'IrishSOPA' into law? IMRO has now filed that hotels should pay. Me, as a regular user of hotels, I do not use any form of radio or TV in a room supplied where I stay, so how can IMRO know or even guess what guests do or not do?

Sean, ask the hi-tech firms in the US silicon valley how they feel about our #IrishSopa?

This is my submission to CRC12
