## EXPLANATORY NOTE

*(This note is not part of the Instrument and does not purport to be a legal interpretation)*

The purpose of these Regulations is to give effect to provisions laid down in relation to asbestos in entry number 6 Annex XVII to the Regulation (EC) No. 1907/2006 of the European Parliament and of the Council 18 December 2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH), as substituted by Commission Regulation (EC) No. 552/2009 of 22 June 2009.

The Regulations specify how the Health and Safety Authority (HSA) may issue a certificate to exempt an asbestos-containing article, or category of such articles, from the prohibition on the placing on the market of an asbestos-containing article provided for by Article 67 and Annex XVII of the REACH Regulation. The Regulations set down the procedures for applying for an exemption certificate and the process by which the HSA will make its decision to grant or refuse such a certificate application. There is also a procedure whereby the HSA can revoke any decision to grant an exemption certificate and an appeals procedure whereby decisions of the HSA under these Regulations can be appealed to an appeals officer.

The powers available to inspectors in the enforcement of these Regulations are contained in Section 12 of the Chemicals Act 2008.
