## Cross-Government launch of new National Implementation Plan for the Sustainable Development Goals 2022-2024

The Government has launched the new National Implementation Plan for the Sustainable Development Goals 2022-2024 on 5 October 2022.

The new plan sets out five strategic objectives and 51 actions, with 119 individual measures, to increase Ireland's ambition and strengthen implementation structures to achieve the Sustainable Development Goals (SDGs). The plan was developed in collaboration with all Government Departments and key stakeholders, and based on input from two public consultation processes held over the last year.

The launch reflects the whole-of-Government approach Ireland has adopted to the implementation of the SDGs. Each Minister has specific responsibility for implementing individual SDG targets related to their Ministerial functions and

the Minister for the Environment, Climate and Communications has responsibility for overseeing coherent implementation across Government.
